

# MTP POLAND

## Active day and night

**Design and Produced in POLAND (manufacturer)**

### Solar Traffic: Controller

- . Solar Panel: 50watt
- . Battery: 12 volt, 50Ah sealed lead acid
- . Microcontroller system with ability to adjust each motion phase,
- . Programmability through computer,
- . Automatic, manual, flashing and full-red models,
- . Adjusting driver yellow time and pedestrian red flashing time (clearance),  
Separately for each phases,
- . Time scheduling and separate phasing for each phase (with 1 second precision) up to three motion phases,
- . Three output signal groups (each with 5 amperes fused output).
- . LCD monitor,
- . Fully sealed and resistance to dust,
- . Metal body with anti-scratch electrostatic furnace color,
- . Separate door for police access,
- . Dimension 30\*49\*16 cm,
- . Weight 15kg,

**Warranty: 2years**
